

Rich Oil Fields Now in Operation Near Astoria

Right at the Mouth of the Columbia River

That OIL and natural GAS have been discovered in paying quantities across the Columbia River from Astoria at Onieda, Washington, has been important enough to a number of well-known reliable parties to cause the organization of the Pacific Coast Gas & Oil Co., with a capital stock of \$300,000. This company has just placed a number of shares of stock on the market at the low price of \$50.00 per share. READ ON--

What the Company Is

The Pacific Coast Gas & Oil Co. is composed of reliable business men of Oregon and Washington whose only purpose is to develop the property to the best of its ability and produce a paying mine of oil and gas that all who have purchased stock may share in its profits. The officers serve without salary and include among them some of the most reputable citizens of the State. To make the company strong on account of its brilliant future it has secured leases on over 6000 acres of land. It has obtained the highest expert authority on the geological formation of the land, employed the strongest expert workmen to operate the drilling apparatus and given such other evidence of good faith to warrant any man making an investment with them.

Alex Sweek, president, Portland.
Clayton S. Barber, sec. and treas.
R. A. Wade, vice-president.
Directors—John Nelson, Onieda, Wash.; Geo. L. Hutchins, Portland; Wm. Anderson, Deep River, Wash.

The plant is now in constant operation. The drilling is being done under the supervision of two expert oil well operators. You can see them at work any day of the week at Oneida right opposite Astoria.

The picture opposite is a view of the derrick in actual operation.

If you have any doubt as to the stability of the company, or in the manner in which it is operating, before you make any investment visit the property any day and satisfy yourself. Oil and gas will be found in paying quantities. After the "strike" it will be too late to buy stock. Do it NOW.

Stock for Sale

For Development Purposes

The per value of the stock is \$100 per share, but is now offered at one-half (\$50) and it is worth it. The company has already sold a limited amount of stock, equipped the property with the best working machinery in the world and it has plans for a great future. The money secured from the sale of stock will be to push the work. Every dollar will be used to prepare for the best interest of the company. As the drill goes down the stock will surely rise. The price it is now offered at will only be a short time. A good rule is to let opportunity in when it knocks at the door. For an investment there is nothing more tangible, brighter or more surer dividend paying than this stock, particularly at \$50 per share. Don't wait until it goes to par, but buy now. It is really a chance that comes seldom. Further particulars at the addresses given below.

PACIFIC COAST GAS & OIL COMPANY

402 Commercial Block, Portland, Oregon. Higgins & Warren, Savings Bank Building, Astoria, Oregon.

The Daily Market Report

PORTLAND, July 7.—Oregon cream triplets, 13½c; Young America, ranch eggs are in light receipt, and quotations advanced this morning to 19c and 20c for candled, with a firm tendency. Uncandled are valued at 19c.

Dealers in eggs consider the laying season drawing to a close and that receipts of fresh eggs will be lighter from this on. The warm weather helps in the tendency toward scarcity, as they will not keep for any length of time out of cold storage. The egg season begins in the Northwest in January, and the supply increases from week to week until April, which is considered the height of the laying season, and the best time for placing in cold storage for the following winter. The stock on such storage is not considered up to the average this year, as prices did not go below 16 to 17 cents, and at this figure is does not pay to place many away and run the risk of Eastern eggs being shipped in from the great packing centers at 20 cents a dozen, to compete with the home storage. This year a great many eggs have been put away in Chicago and Omaha, and it is expected that this stock will be drawn on after the price of Oregon ranch has reached 25 cents in Portland.

Flour, Grain and Feed.
Wheat—Track prices: Club, 85c red Russian, 83c; bluesteam, 87c; Valley 85c.

Turpentine—In cases, 63c; in wood barrels, 61½c; in iron barrels, 59½c; in 10-case lots, 62c.
Over Thirty-Five Years.
In 1872 there was a great deal of diarrhoea, dysentary and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained that record. From a small beginning its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by Frank Hart and leading druggists.

MURDERED IN KOREA

Since Japanese Took Hold of Hermit Kingdom Crime Has Been Rampant.

SEOUL, Korea, June 15, via San Francisco, July 7 (Correspondence of the Associated Press).—More than 1,000 Koreans have been murdered by the Korean insurgents and so-called patriots within the last few months. These Koreans were all members of the II-Ching Hoi, a pro-Japanese Society. Most of them Koreans murdered by their fellow countrymen were peaceful, hard working men whose only crime seems to have been opposition to the disturbing element in the country and friendliness to the Japanese protectorate.

In addition to those murdered there have been a number of cases of cruelty and hardship.

The actual statistics carefully collected and in every case verified, show that since the Japanese protectorate of Korea commenced 926 members of the II-Ching Hoi have been murdered by the Korean insurgents, 360 houses have been burned, involving a loss of about 50,000 men. The revolution in Korea is gradually being driven into a corner. Scattered bands of rioters are being rounded up and either forced to surrender or their activity effectually stopped. The course taken by the government in the last rigorous campaign instituted against the disturbing element is approved by the people of the country, both foreign and natives.

Chamberlain's Colic, Cholera and Diarrhoea Remedy Would Have Saved Him \$100.00.

"In 1902 I had a very severe attack of diarrhoea," says R. N. Farrar of Cat Island, La. "For several weeks I was unable to do anything. On March 18, 1907, I had a similar attack, and took Chamberlain's Colic, Cholera and Diarrhoea Remedy which gave me prompt relief. I consider it one of the best medicines of its kind in the world, and had I used it in 1902 believe it would have saved me a hundred dollar doctor's bill." Sold by Frank Hart and leading druggists.

Help for Those Who Have Stomach Trouble.

After doctoring for about twelve years for a bad stomach trouble, and spending nearly five hundred dollars for medicine and doctors' fees, I purchased my wife one box of Chamberlain's Stomach and Liver Tablets, which did her so much good that she continued to use them and they have done her more good than all of the medicine I bought before.—SAMUEL BOYER, Folsom, Iowa. This medicine is for sale by Frank Hart and leading druggists. Sample free.

Twenty-Five Cents is the Price of Peace.

The terrible itching and smarting, incident to certain skin diseases, is almost instantly allayed by applying Chamberlain's Salve. Price, 25 cents. For sale by Frank Hart and leading druggists.
